VERISMA SECURE, INTELLIGENT SOLUTIONS

Technology-enabled Release of Information

Automate the ROI process and provide compliance guidance from request intake to fulfillment with **Verisma Release Manager**®.

1. Ensure 100% of HIPAA-covered requests are reviewed for quality assurance
2. Monitor with analytics tools for the highest level of insights and transparency
3. Leverage deep-rooted expertise blended with the needs of your existing team

Data Archiving

Retire expensive legacy systems and retain secure, timely access to all clinical information in one location.

Revenue Cycle Support

Protect your at-risk reimbursement dollars with an end-to-end release of information and audit management solution. Verisma Claims Audit Manager™ creates a single source of truth for audit management and maximizes revenue integrity with a partner you already know and trust.

Care Coordination Solutions

EHR Conversions / Chart Abstraction

Get help with data migration projects from upfront planning and process development to structuring data and auditing updated fields.

Inbound Document Management

Accelerate indexing and filing of incoming documents into your EHR to achieve the reporting providers need.

Patient Forms Completion

Improve patient satisfaction with timely forms completion, including disability and FMLA.

Prior Authorization

Leverage people-powered technology to handle every step of the PA process, including follow-ups.

Referral Management

Streamline and track the patient referral process to avoid gaps and time lapses that put patient care at risk.

Rated #1 in ROI five years in a row by Black Book™ Market Research
